

A New Community Garden At Good Shepherd UMC

The purposes of our Community Garden are:

To raise food in a Mission Garden that will be distributed by area food banks through the Adams County Community Garden CO-OP

To provide space and opportunity for the community to enjoy gardening as an activity

For households to raise nutritious food for their tables

To provide an opportunity for new friendships

Any resident of Adams County may participate. There is no cost but donations are appreciated.

**To participate, please contact the church office:
(303)-457-9267**

If you would like a 4'x8' garden area do not wait! Spaces are limited!

We appreciate the support of the City of Thornton who is providing the water for this Community Garden.

We will be expanding the garden in April 2010!

Spaces are available if you, too would like to participate!
